Purpose:

The energy management policy provides guideline for aligning energy management practices of all units of MANTRI METALLICS with company's environmental policy and business vision.

Scope:

The policy is applicable for all units of Mantri Metallics Pvt. Ltd.

Vision:

MANTRI METALLICS will be one of the best low energy consumer units producing machined castings in Kolhapur.

Mission:

- We will use latest technology and world class practice to reduce energy consumption and greenhouse gases to achieve sustained success in this area.
- We will train & empower to our employees to motivate them to undertake various energy conservation projects.

Objectives:

- We will use non-conventional energy resources to achieve the goals.
- We will make automatic superior systems to reduce wastage of energy including electricity and fuel.
- We will buy low power consumption equipment in offices and operations.
- We will increase renewable energy capacity by using natural resources.

Review and monitoring of policy:

Policy will be reviewed every three years to accommodate Indian laws, new concepts, new technology, global vision and expertise.

Policy will be implemented and monitored by Safety Officer - Mr. Uttam Dongle.

Safety Officer will be responsible for communicating policy statement to all stakeholders.
